Brother hl 2240 error light

I bought the Brother HL-2240 printer for sale and I love it. I use it connected to my router via for secure printing on the SSH tunnel remotely, and native printing via CUPS AppSocket/JetDirect Protocol socket://192.168.1.1:9100 on the home network. This evening the starter cartridge came out just as my kids needed to print their homework at 10:00. As you probably know, it's not really out, just reached the page 700 limit in a printer memory counter to encourage me to buy toner and maintain full ground filling. Thanks to the below and the power cycle added to step 10, the tasks were printed. Here's how you reset the toner light to your brother HL 2240: 1. Turn off your brother HL-2240 2. Open the front cover of the printer 3. Press and hold Go and turn on the power. Don't let go of the button. 4. When all 3 lights light up, release the Go button. 5. Press the Go button twice (See the green Ready flashing every time you press the Go button) 6. All the lights will turn on 7. With all the lights on, press and release the Go button 5 times (See the ready light flashes green every time you press the Go button) 8. Error light will start flashing (do not be alarmed. This is expected.) 9. Close the door and wait. The printer will pass and make the sound that it does when it initially cuts. After the sound stops, the greenbe on and solid. 10. If the linux computer is looking for the maintenance mode driver, turn off the printer, wait 5 seconds and turn it on. 11. Now you are ready to print. Here we go! Support the company brother because they make fantastic printers! Get out and buy a brother printer HL-2240 - they are big -, but keep your money earned hard in your pocket when it comes to reloading your toner. buy your toner on ebay and refill the brother cartridge that came with the printer. You'll save a lot of money for the long journey. update - 7/3/2013 - bh12 maintenance model if you are having a problem in addition to the reset toner problem, incorrectly inserted the printer in maintenance mode by pressing the go button an incorrect number of times or you are experiencing another problem, you can try to reset the printer to factory default settings. to perform a factory reset on your brother HL-2240, you can follow these instructions: check that the front cover of the printer is closed. turn off the power switch on the right side of the printer. press and hold the go button and hold the button while turning on the power switch. hold the go button until all the led lights up and the ready led turns off. release the go button. make sure all leds turn off. press the go button 10 times. the ready led will flash while the printer is restored. after the printer is restored, the ready led will be turned on. smooches, kila mortin problem: the toneron your brother HL-2240 is lit. You need to reset your brother HL-2240. Solution: Follow the above steps. See BHL2 Maintenance Mode? Restore the printer using the above steps and THEN follow the instructions to restore the toner cartridge. Brother HL 2240 Printer Setup Refer to these guidelines for Brother HL 2240 Install. Open the Brother HL 2240 printer box and remove the components of the Brother printer. Depending on which region the printer has been purchased, the components in the box may differ from those mentioned in this guide. The manufacturer recommends using a USB 2.0 cable that is no longer than 2 meters (6 feet). Check if the box contains the Brother printer, the installation CD, quick configuration guide, safety booklet, AC power cord, battery group and toner cartridge mounting. Cut the packaging from the sides of the Brother printer and discard the desiccant package that is located on the exit tray. Remove the elastic material from the Brother HL 2240 printer drum and then remove the protective material from the battery assembly slot and cartridges. Take the battery of the Brother & Toner printer from the Brother HL 2240 printer and shake it side by side along the horizontal axis. This procedure redistributes the toner. Reinstall the Brother HL printer toner cartridge in its slot. Close the front cover of the Brother printer. Completely take the Brother printer paper tray. Loading paper sheets in tray and use paper width guides to protect them. Make sure the paper sheets are not stacked over the "3 arrows" sign on the tray. Push the paper tray into the Brother HL 2240 printer. Connect the Brother HL 2240 printer power cord to the power port and wall socket. Activate the power switch. It takes a few seconds for the Brother HL 2240 printer to initialize, and then the READY LED is constantly illuminated. Now, press the Go button on the Brother printer to print the test page. For Windows computers, connect the USB cable to the USB port on your computer and the Brother printer before installing the Brother HL 2240 printer software. When installing the Brother HL 2240 printer on your Mac computer, you must connect the USB cable to the Brother printer before Brother HL 2240 Installing the driver for the printer. Follow the instructions displayed on the Brother HL 2240 driver installation screen to complete the Brother printer setting. printer. brother hl 2240 error light flashing. brother hl 2240 error light stays on. brother hl-2240 error light blinking. brother hl-2240 error light solid. reset brother hl 2240 error light flashing. brother hl-2240 drum and error light. how to reset error light on brother hl-2240. brother hl-2240 toner error light
