Each workbook requires an attentive reading of the text. After each small reading segment, there are text-dependent issues. These issues will come from the basic call to Christian thinking: There are no contextual vocabulary issues that do not only improve student vocabulary, but also help them prepare for Act / SAT. These workbooks are truly inter-curricular, and use the reading throughout the curriculum. They are popular among all, from those who teach special education students with understanding difficulties of reading, until those teaching students of American history, world history and European history of levels. We have a history program that we are following and studying together with our children. Then I give these work books for the boys to work individually and in their own time. They are able to practice highlighting, taking notes and writing short answers. I'll [download] all the workbooks available, and I highly recommend them for other families. Review by Cheryl H. This was a fantastic book. We had never heard of Olaf Trygvason, and it came at a time when we are studying the pAs in which he was born. We like how it reads like a good story, but with so much information as well as questions, etc. Great biography!! Review by Melody K. What a great feature! These are great brochures that are presented in a pleasant format. The review questions are placed at intervals within the text. That makes it great to find a good place for the day. It also© takes the guessing work out of the equat, eliminating the "what questions should I assign to that section" confusion. This tattoo is © particular favorite of mine and I was able to share it with my kids notes 5 and 10 that also © I seemed to really enjoy it! I recommend it to any fifth-grader. Review by Pamela S.
